Message from the Head teacher

Alhamdulillah, we have now come to the end of yet another busy and exciting school year. It has been a great pleasure to see all the children thrive, growing in confidence and making great progress. We also say goodbye to our year 6 leavers who will be moving on to their secondary schools. We pray that they continue to do well at their new schools and prosper and become successful individuals in the future.

Well done and JazakAllah to all our children, staff and governors for making Rawdhatul Uloom a fantastic place to be! I pray you all have a wonderful summer break and look forward to seeing you all in September for another exciting year. Inshallah

Sports day

Alhamdulillah we had a fantastic sports day at Thompson Park. The children thoroughly enjoyed participating in all the races. Well done to all the children taking part, especially to those children who came first in the races.

Here are some pictures from our sports day

Running race

Sack race

Egg and spoon race

Skipping race

Blackpool Zoo Trip

Year 1, 2 and 3 went to Blackpool Zoo. We enjoyed looking at many animals, including the elephants, giraffes and penguins. The highlight of the trip was watching the sea lions performing a range of acts live. Our children's behaviour was impeccable and this was observed by staff and visitors who commented that this has been the first school that has been so well behaved.

Trip to Gulliver's world

Year 4, 5 and 6 visited Gulliver's world for their end of year trip. Alhamdulillah the weather was fantastic and enabled the children to thoroughly enjoy themselves. Our teachers were very proud of the good behaviour the children displayed and look forward to many more trips to come in the future.

Multi-cultural Day

Alhamdulillah our first multi-cultural day was a huge success. The children from each class studied the culture and lifestyle of their chosen country and then set up a workstation in the hall for everyone to experience the culture. We also included activities that were specific to that country. Children were given the opportunity to sample food from each country which they found extremely enjoyable and in some cases children liked the food so much that they came back for a second helping.

Reception class studied Greek culture

Here we have a replicate of the famous Parthenon which is a temple in Greece. They had pitta bread and chicken and other delicacies from the country.

Year one studied the Moroccan culture

Here we have some items which were kindly lent to us by a Moroccan sister. Some of the items included: a Moroccan tagine (cooking pot) a fez

(hat) and a teapot.

Children tasted baklava and spiced couscous.

Year two class studied Italy

Our year 2 class made a short presentation about the leaning tower of Pisa and they told us about the Italian colours they had learnt. Some of the food that they had prepared included pizza, and bread sticks with some yummy pasta.

Year 3 Studied Egypt

Mashallah, the year 3 class made an outstanding display of Egypt and its culture. They created scale models of the pyramids and also had an activity for other children to create their own pyramid. Their snacks included: sweet couscous, three different types of hummus with pitta bread and refreshing pomegranate juice.

Year 4 studied China

The year 4 class set up a beautiful display show casing the Chinese culture. We were very fortunate to be able to include authentic Chinese artefacts which were kindly provided to us by a student's grandparent.

Children were given the opportunity to learn how to use chopsticks to eat scrumptious spicy noodles. These were extremely popular amongst the children.

Year 5 studied Brazil

The year 5 class enticed the children with mouth-watering chocolate brigadeiro which is authentic Brazilian chocolate fudge.

Children were given the opportunity to try forest fruit juice which is popular in Brazil as they have the largest Amazon rain forest in the world.

Children enjoyed making carnival masks as an activity.

Year 6 studied South Asia continent focusing on Pakistan, Bangladesh and India

The year 6 learnt about Hindustan which was eventually split into three countries. They looked at geographical and locational knowledge.

The year 6 teachers were overwhelmed by students who were eager to sample some asian food which included: Bombay mix, daal chawal, lahori biryani, falooda and rooh e hafsa.

The end of year party

Jazakallah for all of your generosity, the food was enjoyed by all children and staff.
The party was a huge success and was a memorable experience.
